

MT. STERLING A VOCATE.

A WEEKLY JOURNAL, IDENTICAL IN INTEREST WITH ITS OWN PEOPLE.

VOL. III.

MT. STERLING, KENTUCKY, TUESDAY, JULY 25, 1893.

NO. 52

Congressman W. C. P. Breckinridge and Mrs. Louise Scott Wing were united in marriage at Louisville Tuesday evening. They immediately left for a short trip to Horrogate Tenn.

The Covington City Council has passed an ordinance to force down the price of telephones by taxing the company heavily on every telephone for which a higher rental than \$50 a year is charged.

The attendance at the World's Fair is already begining to feel the good effects of reduced railroad rates. In the meantime the efforts of the roads to stop the cutting seem only to make rates still lower.

Silver bullion was purchased Friday by the Treasury Department at seventy cents an ounce, the lowest price ever paid by the Government. This is fifty cents lower than the highest price paid since the enactment of the Sherman law.

Senator Coke, of Texas, thinks financial reform is a question as tariff reform, and as much entitled to consideration at the extra session as silver. He will not vote for the repeal of the Sherman law unless a substitute favorable to the continued coinage and use of silver be adopted.

Negotiations for the settlement of the latest outbreak in Nicaragua have been abandoned, and there is no hope of any peace in the troubled country. Steamships seized by the insurgents began bombarding a camp of Government troops yesterday. Further fighting is expected.

Writs of attachment was issued at Providence, R. I. for the sum of \$300.00 against Henry L. Aldrich. The attaching creditor is Henry M. Taber of New York. It was stated that it was entirely a personal matter with Mr. Aldrich, and in no way involved the manufacturing interest with which he is connected.

Thursday afternoon a can of naphtha exploded in the sweet-brand factory of J. D. Campbell 211 Watworth Street, Brooklyn, killing four people. The dead are: J. D. Campbell Samuel K. Campbell, his son; John Weiss, 25, of 228 Walworth Street. Matthew Deering was badly injured. The building was totally wrecked.

General John G. Walker, Winchester, Va., died Thursday night. He was in Washington negotiating an appointment to a diplomatic position and was stricken with paralysis Saturday. Gen. Walker was a distinguished officer in the Confederate service. He was a native of Jefferson City, Mo., 71 years of age and leaves a widow one son and three daughters.

The closing down of silver mines, smelters and the reduction of the working forces of coal mines, railroads and manufacturers of Colorado because of the reduction in the price of silver, has caused a deplorable state of affairs. It is estimated that in Denver there are 10,000 men out of employment. There are 30,000 in outside towns in the same condition, one-half of whom are making their way to Denver.

A daughter of Karr Elliott, one of the leading planters of Lafayette county, Mo., was assaulted and murdered on her father's plantation by a colored convict who was a "trustee" and allowed to go about on business and errands from the convict camp by the State. The girl's body was found completely severed from her body and hid in a sink hole. A posse went to the camp and demanded the delivery of the colored man to them. He was lynched with promptness. He confessed the crime and implicated another "trustee."

The coroner's jury has placed the blame of the calamity at the coal storage warehouse in the World's Fair grounds on Director of Works Burnham for knowingly permitting the erection of a death-trap upon J. B. Skinner, President, and Charles A. McDonald, Secretary of the Hercules Iron Company, for erecting such a building, and upon Fire Marshal Edward Murphy for sending his men up the tower after he had been warned of the fire below. All four were held to answer to the grand jury.

SECRETARY CARLISLE

On Duty—Hard Work For the Nation.

Pensioners Beweaved

Attorney-General Olney Asks The Rascals For Their Resignations.

Washington, July 24, 1893. Secretary Carlisle is again on duty, having returned from the ten-day vacation which is probably the only one he will get for many months to come, as the general belief, fully shared by himself, is that he has now entered upon a long period of the hardest work of his life. His department deals exclusively with the two great questions that will occupy the time of Congress—the tariff and finance—and it is his desire to be prepared to furnish all of the information on both subjects that will from time to time be asked for from the time that Congress takes up these questions until it disposes of them, and when that will be a commendation that no wise man will try to answer at this time.

Not the slightest bit of sensation was caused by the alleged news, received here early in the week, of the disabling of the U. S. S. Mohican by a shot from a poaching sealer flying the Hawaiian flag, for the very simple reason that nobody believed a word of it. The department has had reports from Behring's sea dated a month later than when the alleged disabling took place, which make no mention whatever of any such incident. That's why nobody believed the story.

The number of pensioners absolutely dropped from the roll since March 4, last is 245, but in the same period 5,000 have been suspended, pending further investigation. Judging from past experience in such cases it is estimated that a large majority of the latter will finally be dropped. The work of examination is being pushed as rapidly as possible and will be continued for a long time to pensions granted under the act of 1890.

Now that Secretary Lamont has taken a four years leave on a Washington residence the rumor-mongers will probably cease starting stories of his intended early retirement from the Cabinet. He will live in good company as his house is next door to that of Senator Bruce and within a stone's throw of the White House. The Secretary came here this week to consult with Secretary Cresham in regard to several matters under the State department which were neglected when the President left town, and while here he signed the lease for his house. Although accompanied by Mrs. Lamont whose face is almost as well-known as his own the Secretary spent several hours in Washington and got safely away before the newspaper men knew of his visit. However, it would not have made much difference, as Lamont is a past-master in the art of talking with out saying anything, which Talleyrand said was the first requirement of diplomacy.

During the short time Secretary Lamont remained in town he found time to decide that Army officers who desire to attend the World's Fair must pay their own fare like other people, and that permissions granted officers to attend the fair do not carry free transportation. While this will upset the plans of numerous Army officers who have been calculating to take in the big show at Uncle Sam's expense, its justice is manifest to all. The salary of the Army officers who will visit the fair go right along and they certainly should be willing to pay their own expenses.

Attorney-General Olney has been accused of not looking very favorably upon the practical side of politics, i. e.,

putting out the opposition and putting in members of his own party, but before leaving Washington for a short vacation he showed that accusation to have been undeserved by notifying a number of the assistants to the Attorney-General with salaries ranging from \$1,500 to \$3,000 that their resignations were desired, and it is stated by those who know that every Republican connected with the Department of Justice, outside of the classified service, is to be made to walk the plank.

A good many guesses have been printed about the chairmanship of the important committee of the last House, and one of them was that Representative Bland would not again be Chairman of the Coinage Committee. Now, it can be stated upon excellent authority and without violating anybody's confidence that Mr. Bland will be chairman of that committee in the next House, unless he declines to serve again, and there is no apparent reason why he should do that.

Speaker Cripps is not expected here until about August 5, two days before Congress assembles, and a movement is now on foot to postpone the Democratic House caucus for the nomination of officers until the morning of the 7th, as it will only require a few minutes for it to transact its business. The canvass for Sergeant-at-Arms and Doorkeeper is going on quietly and all of the candidates are claiming to be safe. There is practically no contest for the other places—Clerk, Postmaster and Chaplain.

JUDGE FRENCH ACCEPTS

Mt. Sterling, Ky., July 24, 1893. Messrs. E. C. Owings, H. L. Lane, and others,

Gentlemen—I would indeed be pleased were I not deeply touched by the call you make upon me to become a candidate to represent the counties of Montgomery and Menefee in the next General Assembly. That so many of my fellow-citizens have united to do me this honor, and have given expression to their partiality in terms so flattering, stirs my heart with feelings of profound gratitude. While no office can enhance the pride I feel in the possession of this evidence of your confidence, I cannot lightly disregard the generous expression of your desire that I shall serve you, and so liberal a pledge of support.

As I do not seek the office to gratify any desire for political preferment, or to aid in advancing the political ambitions of others, in accepting the call and announcing myself as a candidate, I am moved by no other consideration than a sincere wish to serve the people faithfully. I emphatically declare that I am free from any outstanding alliances or pledges; at perfect liberty to act as my judgment shall dictate.

In this connection I beg your indulgence to reply to a question propounded by one of my opponents, Mr. Cassin, in the last issue of his paper. He declares himself "for William Lindsey" for United States Senator, and asks whom I will support. I think the question impertinent, I am not sorry to have the opportunity to define my position. I do not consider this the sole or most important issue. I elected I will go to Frankfort to participate in the enactment of laws far graver in import to the people generally than the question as to which of several good men shall be United States Senator. If the gentleman is so poorly equipped that he must needs borrow a senatorial horse to ride to victory I prefer to walk the plain road of independence, trusting to the good sense of the people to choose a man who refuses to solicit their votes upon the ground of his allegiance to any particular individual. He does not know, nor do I, what names he has heard of, nor do I choose, and I affirm that I have not, in advance, determined in my own mind for whom I will vote. I will reserve my liberty to support the man my judgment then approves, or I will stay at home. This may not be "practical politics," but it is my unalterable determination.

The only pledges I shall make are unflinching allegiance to Democratic principles and honest effort to enact wise laws. Believing you would not have me become a candidate upon any other platform, and tendering each of you my hearty thanks for your kindness, I am very truly,

Your Obedient Servant,
H. L. FRENCH.

During the past week there were 407 business failures throughout the United States, against 168 during the corresponding week of last year.

A Letter From Henry Clay.

The Detroit Free Press, of late date, publishes a letter from Henry Clay written to his friend, Frank Thomas, of this city. The letter is especially interesting to Mt. Sterling people because it refers to those who were well known to our older citizens. Mr. Thomas was the father of Mrs. Louise French, whose property the latter now is. The editor referred to is a Mr. Dowling, who was a Jackson Democrat, and whose death occurred only a year or two since in Washington, City.

Ashtand, October 5, 1829. Dear Sir—Since my return from the Green River Country, Mr. Smith has shown me a sketch, by whom I do not know, of my speech at Mt. Sterling, which appears to have been addressed to you. It is in general remarkably accurate and is certainly a much fuller as well as more correct representation of what I said on that occasion than was published in the Mt. Sterling paper. Still I do not wish its publication, for two reasons, first of which is that I do not think it of sufficient importance and the second, that I do not mean at any time to be forced to publish any speech by the garbled accounts of it from an impartial source. One of the conditions on which I consented to address the meeting was that my speech should not be published. To that I adhere.

My indisposition to the publication does not proceed from any objection which I have to my expressions or even my thoughts being known to the whole world, but because I do not wish to present myself too frequently before the public. I have in the course of the last three weeks made some half dozen speeches, two of which occupied more than three hours in delivery. Some of them have been published. And yet I never made one in my life that appeared to give so much satisfaction as the two to Russellville and Hopkinsville, to the whole audiences. I caused a paragraph to be inserted in the Reporter denying the correctness of the sketch published at Mt. Sterling, with that I am content. There were several gross inaccuracies in that sketch which I could point out if I had but time. It was necessary. One was in relation to the time the offer was made me of the Department of State and my motives for accepting it. Another was in attributing to me the sentiment that I would give up the union soon. I am content. I said that if a minority could at any time run upon any subject and in any part of the union and by threats of its dissolution control the majority that the union would not be worth preserving. I move at prize the American system I love the union still more. There was nevertheless enough of truth in some parts of the sketch to deceive a careless reader who heard the speech. I am sorry to trouble you so much on a little affair really not worth it. As to anything the editor of the paper at Mt. Sterling (I forget his name) can say, write or do, it is absolutely beneath my contempt. I will thank you to make my respects to the gentleman who furnished you with the sketch and to inform him that it is my will that it should not be published. Be pleased also to communicate my regards to Mr. Thomas and Mr. and Mrs. Howard, and believe me with constant regard,

Yours Respectfully,
H. CLAY.

To Mr. F. Thomas, Esq.

Must Know How to Read and Write
The section of the new Constitution which says the criminal court shall, on motion of either party, instruct the jury in writing, has brought out an important ruling of Chief Judge Green at Williamstown, who decided that in view of this provision of the constitution, every juror must be able to read these Instructions for himself and that a man who could not read and write is thereby disqualified for service as a juror in such cases.

At a director's meeting it was decided to shut down the mills of the Westbrook Manufacturing Company, of Portland, Me., because of the loss of the monthly pay roll of \$20,000. The price of gingham is low and new goods cannot be sold till fall.

At one canning factory in California a contract has been made for 9200 cans of strawberries, 3800 ears of raspberries, blackberries and peaches, 2400 cans each of huckleberries, Bartlett pears, Royal Anne and Black Tartarian table cherries, 1200 gallons each of currants, pie plums, pie cherries and pie peaches. The cans were not specified in the ordinary 2 1/2 pound size.

Nearly, if not all of the very early strawberries have some fault which renders them undesirable to grow for family use. Either they are not productive, they are small and insipid in flavor, or they do not keep their berries off of the ground. The medium early and the late are better for home garden, and if they must be had very early, the late are better for home garden, and if they must be had very early, the late are better for home garden, and if they must be had very early, the late are better for home garden.

JUGGLING WITH FIGURES.

A Misleading Proclamation Issued by the Chinese Authorities.

A letter recently received at the state department from Mr. Denby, the United States Minister to China, was accompanied by a proclamation issued by the Chinese authorities, in which was stated that 100,000 Chinese, who have returned to China from the United States during the past year, would be prevented by the law from again entering this country.

An investigation by the treasury department has developed that since 1858 less than 31,000 Chinese have returned to their native country, and the exaggeration of the proclamation is now more apparent when taken in consideration with the well known fact that only a small proportion of Chinese leave this country with the intention of returning.

At Metropolis, Ill., Friday, Richard Shoemaker shot and killed George and Richard Lukins, brothers, and desperately wounded Richard Lukins, Sr., their father, and then turned his pistol on himself, dying almost immediately. Richard Lukins, Jr., married Shoemaker's step-daughter, Miss Lillian Jones, some three years ago. Shoemaker was Miss Jones' guardian, and upon her marriage he was called upon for an accounting. Seemingly he ran through with a large sum left her by her father. Suits were brought in the courts and a bitter feud resulted. Friday evening Shoemaker, armed with two large revolvers, walked to the gate of Richard Lukins, Jr., and finding the two young men standing in the yard, opened fire, shooting George in the right temple and sending a bullet through Richard's heart as he was holding his babe in his arms. Shoemaker then entered the yard and fired shot after shot into the quivering bodies. Richard Lukins, Sr., hearing the firing, ran to the scene of the trouble, only to be met by the murderer who opened the gun on him, shooting him through the thigh. By this time a crowd was gathering, and Shoemaker ran a couple of squares and sitting down sent a bullet into his abdomen, and was dead in a few minutes.

The Danville Fair.

The Danville Fair this year—beginning August 1st and continuing four days—will be one of the best in the Bluegrass. The Cincinnati Southern Railroad will run excursion trains to the Fair at one fare for the round trip, every day except the first, and the Louisville Southern will sell round trip ticket from all station at the same rate. The track is very fast and the grounds are cool and shady.

Quaker Run Religious Sects.

There are not less than 15,000,000 followers of insane and cranky notions in the future of the earth. These communities of devout and deluded beings are constantly being enlarged in spite of all efforts made to the contrary by the movement.

One of these sects is known as the "Runaways." As soon as they embrace the new faith they fly from their villages and towns, destroy their identity as much as possible and huddle live as savages.—Philadelphia Press.

THE ADVOCATE

Powderly's New Plan.

grand Master Workman Powderly is a plan for the grand Federation of Labor. There is much in Mr. Powderly's scheme as outlined that commend itself to all thoughtful people. The union of all wage workers under one head and for one purpose is an admirable one, and Mr. Powderly's idea of including the farmers is further worthy of consideration. But the labor leader's task is a Herculean one, and we doubt that any man could do it. He has to be wakening the organization a political one seems to be the weakest spot in his projected confederation. "A political organization without leaders as far as possible," is Mr. Powderly's idea. We believe politics without leadership is a paradox, and that politics, as one of the ruling forces of such an organization, would be its bural. Too much politics has always been attached to organizations of this kind in the past, and it is not clear that Powderly and we don't see how a similar fate would escape like efforts. Mr. Powderly's platform of governmental ownership for railroads and other natural monopolies is not original, but from what he says upon this point it is difficult to see how the workingtons would be benefitted by this change of conditions. The champion of labor also puts himself on record as saying that "our strikes and boycotts are failures today," asserting this fact to the validity of strikes and judges who are ruled by creatures.

It would have been well had Mr. Powderley provided in his plan of federation a project embracing within it the lines the women wage workers. There is no labor so much underpaid. The working women are without trade organization of any kind, drifting aimlessly in the endeavor nor obtain an honest livelihood without any one to direct their course. A general plan of federation of wageworkers will not be complete without a provision for bettering the condition of women who are obliged to toil.—Grit.

CRAB ORCHARD SPRINGS, KY.

Editor, Advocate:—As I'm an old Mr. Sterling boy, I thought I would write you something of the Keesley Institute, at which I am a student.

I left Mr. Sterling a week ago with the intention of coming here for treatment for the drunk habit. I arrived here all right the evening of the day I left, and was well taken care of. The students here have the warmest feeling for newcomers, and try to everything in their power for their aid. I was soon put on the treatment by Dr. Dick, the physician in charge, and I find him to be one of the finest gentlemen I ever met. There was only a few dissenting students didn't go so well, and I don't think I'll

AND I don't think I'll ever win again. This is a beautiful place for the Keeley "bright," and should be called the "bright of the South." You have here everything that heart could wish; and it is wonderful why more don't come. I, of course, can only speak for myself, and I would say I have not felt better in five years than I do to-day; and I am writing only to show what Keeley has done for me in one week's time, and if it will help why won't it be the means of curing others?

I will further say that had it not been for Mr. Hadden, one of the editors of the *Advocate*, I would not be here to-day, and I will always thank him for mentioning it to me.

I will now turn my attention to the Springs Hotel, under the care of Mr Hoffman, one of Kentucky's finest young business men, who is always on the go to see that his many guests have what they want. We have here at the Springs some of the finest water in the world, and people are here from all the States and foreign countries, inured to the health-giving properties of the water. Invalids after staying here a few days, and after being here only a few days, seem to improve and are made perfectly happy by their rapid progress. We have now about 100 guests, and it is putting it lightly when I say they are having all the pleasure they expected and much more. Persons who expect to spend the summer at some good watering place can do no better than come to Crab Orchard.

I will write more for next week's paper; will close by saying that you will see me in a short time a new man.

Topic For the Week Beginning July 26
Comment by Rev. S. H. Doyle.
TOPIC.—The danger of becoming hardened
 Acts ix. 9; Mark xvi. 8-14.

The danger of becoming hardened or confirmed in sin, unbelief or opposition to God and Jesus Christ is a universal one. It is one that threatens the Christian and the sinner alike, as we see illustrated in our topical references. It is a danger against which the Bible constantly warns all men, and the terrible consequences of which are vividly portrayed in the sacred volume. In our Bible references we see:

9. The unbelievers hardened (Acts 28:26). Saul is at Ephesus. Some believing Jews are baptised and receive the Holy Spirit. But Saul is not. He is not a believer, because all the more hardened in their disbelief. They close their eyes to the truth. They will not see. They will not hear. They resist the truth. They are confirmed in unbelief. This is always the result of persistent refusal to hear God's truth and the rejection of it. God is not responsible for their hardness of heart. It is all because of his unbelief, and thus He is made to harden his heart. Thus it is also that men become hardened in sin. In the face of warning and prayers and entreaties they will not believe. They will not listen until God's spirit is withdrawn from them, and they are given over to a reprobate mind. It was in this way that God hardened the heart of Pharaoh of old, and it was in this way that God hardened the heart of the man who said that he would have made him not different yet. Let us be warned against the danger and neither persist in unbelief nor actual sin. Let us not become hardened and incur the wrath of God, the wrath of the sunburst of His wrath of God.

The believer hardened (Mark xvi, 9-14). In those verses Christ exhorts us for unbelief and hardness of heart. But it is not as if he were saying that we should believe, but the disciples who have been slow to believe in his resurrection, although two of them were those that they had seen with their own eyes. His resurrection was a reality for them, but they were not able to see the possibility that Christian people themselves because of their stupidity or hardness of heart could be in a state of unbelief. We have such an illustration in the children of Israel in the wilderness. How often they were incredulous! How often they were incredulous that they could be hardened in unbelief, and the writer of Hebrews warns his readers not to become hardened, as did their fathers in the wilderness, but to persevere in faith, if they persevere in sin, have their hearts hardened. Therefore the topic warns us against becoming hardened in unbelief, but both in unbelief and in sin. Let us not heed the warning lest the terrible consequences of hardening come upon us. See the following references: Heb. iii, 12; Heb. x, 26-31; Lev. xvi, 41; Ex. xxviii, 38; Prov. xiv, 14; Jer. ix, 30; Math. xiii, 17; Mark xvi, 14; Luke x, 24; Acts vii, 51; Rom. ix, 17.

Talks Hold and Lift.—**Indolence** in the Christian life destroys. Our only hope of escape from this lazy mania is at bottom a bad man in the church or out of it. God cannot tolerate him in His kingdom here or hereafter. The redeemed in heaven serve Him day and night, and we have no hope of escape from this service only as we are active here. A teacher of one of our freedmen's schools told me that one day as she sat at her window she saw two negroes loading a wagon. One of them was very lazy and the other stopped, and looking sheepishly at his lazy companion said, "Sam, did you expect to go to heaven?" "Yes," was the reply, "Then take hold and lift," said the other. There was profound

There are scores of Christians in our churches who expect to go to heaven, who would greatly increase their chances of going there by taking hold and lifting some of the burdens which they are letting their brethren bear alone. And that I believe is the only cure for the sloth to which we all are liable, to take hold of God's work with the little strength we have, and with God's blessings the exercise will increase our strength manifold and by and by overcome the drowsiness of sin.—Examiner.

Christian Endeavor Policemen.
A Christian Endeavor unlike any other in the world has been organized in New York. Its active membership is restricted to the friends who organized the society and policemen and ex-policemen. Its meetings are held every Wednesday afternoon at 8:30 in the rooms of the Christian Police association. The emblem of the society is a combination of a cross, club and shackles which represents the motto: "We are all sinners." Bonnamy Mead, who is president of the society, interprets, "We club together as a Christian Endeavor to free the policemen of New York city from the shackles of sin."

The popular idea of the policemen of the city would not encourage much hope in organizing a Christian Endeavor society, but there are on the force many earnest Christian men, who have held fast their faith and consistency of life in spite of the fiercest temptation. The special case of the New York policemen has been developed into the Christian Police association, originated in the visit of Miss Gurney, an English lady, who has made this her life work. King's Daughters at the World's Fair.—The King's Daughters of the city of Chicago and the King's Sons at Chicago will be at Hotei Edenburg, which is built in the form of a hollow square surrounding a small courtyard including a chapel, a library and a social organization. The King's Daughters' meeting took place June 14, when the members of the central council were present. A room will be reserved for the use of the order, a mutual meeting place for its members and a library of its literature.

How to Build a Hay Barrack With a Movable Roof.

It is hardly practicable to give directions in writing for stacking hay. There are some things that are best learned from observation, and stacking hay is one of these. Therefore if you wish to be better than the average, take lessons by watching a good stacker. The hay should be brought to be made of boards or some timbers to keep the hay from absorbing moisture from the ground. Be sure and keep the middle highest; it should be evenly trod down on all sides. Pitch the hay in a circle, and keep the pitch close near the center of the stack to prevent the hay from packing on one side more than on the other. The top should be finished with long, straight, coarse sprigs or straw. In the old country stacks

These articles have been reproduced for the Farm Journal. It is shown a hay rack with a roof that can be raised and lowered to accommodate a greater or less amount. The poles must be set solidly and perpendicular to each other and come put together with mortise and tenon joints. Raising and lowering will not wrench it and make the roof leak. The roof if made steep may be of matched boards, but shingles will be cheaper in the long run. The roof should be made so that it is not desirable—in fact, very little of it is worth the labor of applying. The poles in the corners through which the poles project are the one defect in this design. They are, however, immovable and the roof is made so that it is not so much superior to it. The main reason for the roof and poles, frequently wetting the stack. The roof water can be kept out by nailing tin to the under side of the roof and letting it flare out of the hole and throw it a way from the pole holes.

A RAY BARRACK.

The roof is raised by a lever and pins. Holes are bored at least four inches deep on the outside surface of the poles, as the engraving shows. A pin or iron bolt is then inserted in one and the lever placed over it. The roof is then raised by the lever pin is slipped in under it and the lever borne down until the first pin is removed and placed higher up in the next hole near the end of the lever. When the barrack is filled, the cover is allowed to rest on the ground at a height of about 10 feet square and 10 feet high holds about 10,000, 531 cubic feet being considered an average ton. Measure the length, width and height and multiply them all together to obtain the cubic contents. If the roof be lowered onto a couple of sleds or rollers, the roof can be raised and lowered and the roof raised on them as at first. It shows the tin placed around the hole, it is the lever and the holes in the post.

Needs of the Cotton Plant.
The "Report on the Climatology of the Cotton Plant" by Professor P. H. Mell of the Alabama Polytechnic institute is perhaps to the southern farmer the most valuable and instructive bulletin issued this year by the United States department of agriculture. As to the needs of the plant at this season of the year Professor Mell says:

[illegible]

White Corn and Yellow Corn. There is a very little difference in the feeding value of yellow and white corn, or color never really affects the nutritive properties of this grain. The northern flint varieties contain more oil than the southern or dent varieties, but the latter contains the greater percentage of starch, which is changed to fat or oil after assimilation in the digestive organs of animals. It is thought, however, says American Agriculturist, that the northern flint varieties are best for fattening animals quickly, but being harder they are more difficult of digestion in sweet corn form of very fine meal. In sweet corn the sugar as well as the starch which changed to sugar in other varieties goes to form the fat of animals, while the phosphates in the grain aid in the build-

THE OHIO CHEMICAL CO., GENTLEMEN—I give my pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was hearty and constant drinker, but after using your Tablets but three days he quit drinking, and will not touch liquor of any kind. I have waited four weeks before writing you, in order to know the cure was permanent.

Yours truly,

THE OHIO CHEMICAL CO., GENTLEMEN—I have been using your cure for my chronic cough for some time, and I feel that I can tell you how to do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars; and I would smoke from ten to forty pipes of tobacco a day. Have smoked and smoked for twenty five years, and two packages of your Tablets cured me to live in health and joy.

Mrs Frank Huffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians and used their treatment until he was not able to get ground. They pronounced his case to be consumption and incurable. He was persuaded to try Dr. King's New Discovery for consumption, coughs and colds and at that time was not able to walk across the street without resting. He found before he had used half of a dollar bottle that he was much better, he continued his use and in a few days enjoying good health. "I now have any throat, lung or chest trouble try it. Business Men to the Front. It looks as if the people of Colorado are fully alive to the consequences of allowing blatherers and demagogues to pretend to the sentiments of their people. A special from Denver, dated July 21, says:

The Denver Chamber of Commerce held an important meeting yesterday afternoon. It was decided, in view of the recent troubles in financial and business circles in this city, that the interests of Colorado demand that the State be represented at the Bi-Metallist League convention in Chicago and Washington by business men, who would place the State before the country in a proper light and repudiate any incendiary utterances which may be made in that convention by delegates from this State. President Hays has instructed a committee of one hundred composed of the leading business and financial men of the city, to go to Chicago and Washington and defend the credit of the State, while at the same time, they shall do all in their power to further the interests of silver.

Judge H. R. French has been censured by reason of his very flimsy candidature for member of the Lower House of the next General Assembly of Kentucky, from the counties of Montgomery and Menefee.

This district is to be congratulated, that such a man as Judge French, will agree to so far sacrifice his personal interests, as to listen to the wishes of the people, to such an extent as to stand for election to this important but small paying office. It does not need that we should tell any Democratic voter in Montgomery county who Judge Howard H. French is. He is too well known to that. By education and training a lawyer; by experience a thorough business man; by practice a parliamentarian; by attention, reading and deep interest thoroughly abreast of and in touch with all the state legislation, he will go to Frankfort no tyro, but will be able at once to take the rank among his fellow members his unquestioned ability entitles him to. His wide business connection and his intelligent study of the wants of our business men, puts him in possession of just such facts as are needed in a legislator.

Withal, too, Judge French is a cultured gentleman—gentle as a woman in his intercourse with men, but as firm as a rock when it is necessary for him to stand for the right. His large stock of good common sense, coupled with his extensive acquaintance with business matters; his unquestioned integrity, his ability, his learning, his legal attainments and his very modesty in allowing an office to seek him, rather than he hunt it, all combine to point him out as the man for the place.

Judge French's announcement will be found in another column.

"We are of the people, for the people," is the first and Republican credo, "is a faithful saying and worthy of all acceptance."

This from a Republican has its significance. To be a Republican is to accept every paragraph in the Republican platform and every measure enacted by that party. The McKinley bill nullified its damaging effects, the Sherman Silver bill, these hard times, etc., are results of the enactment of the G. O. P., and this slush from the pen of a Republican, of the people and for the people, has at its base structure rotten offices.

We say rotten, because of its effects these same Republicans would have Democrats believe what they favor is for the common good of the people. They have been tried and are now coupling a financial whelp, as such that it has become necessary to call Congress together in order to remedy their wrongs.

Republicans, with an amount of gall unequalled outside of their own ranks, are attempting to charge the present financial stringency to the Democratic party. A man must either be a fool or a knave to attempt to convince his leaders or his hearers that such are his facts. It takes but a slight effort to recall the fact that when a Democratic Administration, no longer ago than March, 1883, surrendered the management of affairs to the Republican party, that in the Treasury surplus of such startling proportions as to be almost a menace. Four years later when the same Republican Administration surrendered the reins of government, that surplus had vanished and an additional load of taxation had been laid upon the necks of the people by the infamous McKinley tariff law. More than this, when the Democrats assumed control of affairs it became necessary, in order to meet the obligations imposed by the reckless extravagance of the Republican Administration, to jettison upon the gold reserve. To add to their nefarious administration of affairs, their lease of power was drawn to a close and after the people had asked them out of place and power, the same administration was warned that it was useful to take some steps toward a financial panic, and the article (?) men in charge of affairs refused to take any action that would aid the country; and with an utter disregard of consequences bawled we intend to put the Democrats in a jam. That the country in the midst of a mighty bad fix, no one will attempt to deny; and that this condition plainly chargeable to the reckless mismanagement on the part of the Republican party is equally evident. The Democratic party has, in its less than five months' term, had no opportunity to do anything to very seriously change the existing state of affairs.

Congress will meet in some fifteen days, and an effort will be made to remedy some of the evils of the vicious legislation that the Republican party has heaped upon us. God may forgive these villains for all their misdeeds, but the country never will.

CALL ON JUDGE FRENCH.

(We were forced to omit the following list of names appended to this call in our last week's issue.)

JUDGE H. R. FRENCH,

Dear Sir—You have lived in this community for many years, and have established a character and earned a reputation by which you may well be proud; and your fairness and ability are universally known and acknowledged as your integrity itself.

You have been an earnest worker in the ranks of Democracy, and have zealously labored to promote harmony in the party, and an unflinching support of her principles and nominees; and we think the time has come when you are entitled to receive some recognition.

In view of these facts we earnestly request that you become a candidate for the office of Representative from the County of Menefee and Montgomery in the next General Assembly of Kentucky, subject to the action of the Democratic party; and we pledge our support in securing the nomination.

World's Fair Finances. Auditor Ackerman, of the World's Fair, has presented the official statement of the Exposition to the board of directors.

The statement covers the entire period of the Exposition up to June 20. The receipts of the Fair from the ticket

sales, concessions and other sources since July 1 have been over \$1,000,000, and a large reduction in the floating debt has been made since that time.

According to the statement the total receipts were \$2,131,660.76, including \$282,447.41 received prior to May 1. The total expenditures to June 30 were \$30,616,100.40. Of this amount \$16,456,562.93 is charged to construction. His estimates, however, put the operating expenses for May at \$600,883.87 and receipts at \$719,402.71.

During June the estimated receipts were \$1,160,820.21 and expenses \$642,921.37, leaving a balance for the two months of \$517,898.84. The ratio of receipts to expenses to July 1, while not given in detail, is said to show a very material gain for the Exposition, both in the gain of operating expenses and increased receipts.

According to the statement the total receipts were \$2,151,660.76, including \$283,447.41 received prior to May 1, the total expenditure to June 30 were \$20,616,100.40. Of this amount \$16,436,562.93 is charged to construction. His estimates, however, put the operating expenses for May at \$609,883.57 and receipts at \$719,402.71. During June the estimated receipts were \$1,160,830.21 and expenses \$643,921.37, leaving a balance for the two months of \$1,127,417.78. The ratio of receipts to expenses to July 1, while not given in detail, is said to show a very material gain for the Exposition, both in the gain of operating expenses and increased receipts.

Among the Mountains.

The best route to the Eastern cities via Cincinnati and the F. V. V. over the Chesapeake & Ohio R.R. The scenery through New River canons and over the Alleghany and Blue Ridge mountains is wonderfully beautiful and varied.

The F. V. V. runs solid to New York via Washington. It is electric lighted and carries a through dining car. No other train in America surpasses it and is the only train to the East with through dining car service.

Among the Virginia mountains along the Chesapeake & Ohio R.R. are more than 30 famous summer resorts. A pamphlet recently issued entitled "Virginia in Black and White" describing those resorts and the scenery of the route will be mailed free by addressing C. B. Ryan, Assistant General Passenger Agent, Cincinnati, Ohio.

LUXURY ON WHEELS.

The Most Magnificent Cars in the World.

The C. H. & D., always on the alert to furnish the best and most modern facilities for their patrons, have purchased from the Pullman Company one new compartment sleeper which is absolutely the finest car in the world. They are lighted by Pintlax, and have ten complete drawing rooms in each sleeper. The car is so arranged as to have an aisle through the center of it, as well as on the side except when an occupant of one of the rooms desires to retire, when, by changing the doors, a private drawing room is provided. The description of one of them will suffice to acquaint the traveling public with what is considered the acme of luxury on wheels.

The first room of the series is a queen's berth, containing a double over and upper berth, a lavatory with white metal bowl, hot and cold water, and a good sized square wicker chair, upholstered trimmings and cushions; while yet there is ample room left for one to move about. The exclusive coloring and decorative features are simply marvelous. A marogany watercolor, reaching to the height of the window-sills, is followed by the ceiling, including the upper with front, by painted wood-work of a green striped with gold, broken by embossed and decorated plush panels of tint to match, the latter relieved by gold moldings. The seats of plain plush, the carpets, and the decorated ceiling, in the center of which is a gas chandelier of reflecting mirrors, are in such harmony of color with the green and gold tint. Beveled glass mirrors, framed in beautifully designed frame-work of green and gold, supplant the plush panel in places convenient for the toilet—largest mirror, with its decorative arrangement, forming a center-piece of haste beauty. In this and the adjoining state-room, plate glass panels in the partition forming the aisles, enable one to view the passing scenery by pushing back the pretty ash-curtain drapery, which, at other times, secures an entire privacy in the rooms. A sliding door connects this room with the next, and so on in turn. All of the rooms contain double lower and upper berths, gas chandelier, lavatory, and general design of decorations, same as the former; but they differ in color, one of them being in white mahogany with plush upholstery, and embossed and decorated plush panels, the tint being such as to blend in a harmonious whole, into that delicate shade known as canary.

Certainly, even the Alleghany of the Moors, in its day and generation, was not more beautiful, or harmoniously decorated, than one of these cars. Th

will be placed on the "Electric" trains of the C. H. & D. and Marine Route, which is the only line running Pullman Vestibuled Trains and Dining Cars between the cities named.

The second National Bank, of Ashland, Ky., which closed its doors June 17, was opened for business Wednesday, July 19th.

With the close of July contracts manufacturers of Fall River, Mass., will face the alternative of shutting down and selling at less than cost, or paying exorbitant rates for money to meet their pay rolls. The probabilities are the mills will be closed.

Miss Alice Pitman, of Montgomery county, who has been spending several months with friends in Lafayette for home last Wednesday. Of all the young ladies who have visited his section none has endeared herself to her friends more than Alice. Quiet unobtrusive, lovable, she makes friends of all enemies of none. It is with regret that we part from her, and we hope that she will cheer us again with her presence before the summer is out. —South Elkhorn Cor. in Lexington Gazette.

This is the way the boys away from home talk, and the young men and old men, too, want to see a race. Miss Mary Anderson, of Montgomery, who has been here the past week visiting Miss Jennie Tilton, is being urged by her many friends to become a candidate for County Superintendent, and we feel confident if the encores the race she will have a walk-over for she is a true mixer and well qualified; and more than that, what young man would vote against her? Not one in the county, and young men are a power, when they unite. We are for Miss Mary.—Carroll Mercury.

Miss Mary will be a candidate.

A True Philanthropist.

Mr. John Sherman's generosity in bringing about the present legislative session rather than the necessity of voting a freer bill on President Harrison shines forth in all he says on the subject like "a good deed in a naughty world."

Senatorial District Committee Settles It.

The District Committee of the 28th Senatorial District met at Winchester Tuesday afternoon. Chairman Hinton, of Bourbon, and Pendleton, of Clark, were present. H. R. French, of Montgomery county, was represented by C. Cyrus Turner. The following resolution was adopted:

Resolved, That the Democrats of this Senatorial District are requested to meet at or near their respective voting places on the 3d day of September, 1893, at 2 o'clock p. m., to select delegates to attend a convention to be held in Paris, in the Court-house at 10 o'clock a. m., September 11, 1893, to nominate a Democratic candidate for State Senator from this district. Each district shall be entitled to one vote for every one hundred votes cast for the Cleveland electors in 1892, and one for every fraction over fifty votes so cast; provided that each voting place or district shall have at least one vote in said convention. The Democratic Committee from each precinct, if present, shall call the convention to order in their respective voting places.

J. T. HINTON, Chairman.

C. CYRUS TURNER, Secretary.

Minutes in book form of the meeting of the Confederate Veterans' Association of Kentucky at Lexington, are at C. F. Keese & Co's for distribution, and every member of the Association is thereby requested to call and get one.

The object of the Association is the building together of all surviving soldiers in closer unity, and the perpetuation of sacred and golden memories; to protect and shelter beloved comrades bending under the crowding years, when hands are fast losing their cunning as they struggle to support their loved ones, etc. Every comrade and every one who possesses sympathy and charity should become a member of this Association and do what he can; especially would we urge those of Montgomery county to give this noble band assistance.

THE ADVOCATE.

Born on the 19th instant to John McDonald and wife a daughter.

Rev. E. E. Bonar is conducting a successful school at Howards Mill.

The next session of Mrs. Harris School for girls opens Monday September 4th.

The flux is raging in West Liberty and vicinity. Many people are very ill with the disease.

A daughter was born to W. W. Reed and wife on the 15th instant. Its name is Julia Tyler.

County Superintendent of Public School, J. E. Groves informs us that the pro-rata for this year will be \$2.65.

A. J. Cassidy & Co. of Winchester, have added their ice plant to Pendleton & Cook. Messrs. Cassidy will return to Mt. Sterling.

Mr. E. V. Brother, of Owingsville, Commissioner of the Bath County Circuit Court, a strictly business man and a Democrat of worth, was in to see us Friday and renewed his subscription to the ADVOCATE.

In another column is an advertisement of the school of Prof. M. J. Goodwin. He has established a deserved reputation as instructor for boys and young men second to none in the State. Write to him for catalogue. His number is limited to twenty five.

Mrs. J. C. Carter will go to Manchester this week to visit her brother and sister. She will be absent until September 1. Mrs. Carter has decided to leave Mt. Sterling as was stated in other local papers. Her children accompanied her.

Mr. and Mrs. Ellis Dean entertained very handsomely at their home near this city, on Thursday evening last. The rain which fell in torrents could not keep away a large number of those invited to come to the hospitable home. Those who were so fortunate as to attend enjoyed a delightful evening.

John M. Todd, of the Louisville Evening Post, with his wife, is visiting the family of his nephew, E. S. Jamieson in the county. He is here in the interest of the Post. Tommie Goodwin has been the agent here for the Post and will be glad to give the reading public a live and progressive newspaper, containing all the evening news, for only two cents per copy.

Mr. Henry Welch died at his home, near this city, on Friday afternoon at 4:30 o'clock, after a lingering and painful illness. Mr. Welch came to this county a number of years ago quite a poor man, and by industry and economy he has raised a large family and accumulated quite a handsome property. His funeral service was held in St. Patrick's Church, conducted by Rev. E. J. Healey on Sunday morning. Burial in the Catholic cemetery.

Mr. J. Coleman Reid announces himself as a candidate for County Attorney. Mr. Reid comes before the Democrats of Montgomery county and modestly asks this small, but very important office at their hands. He is a young lawyer of no mean ability who has not heretofore asked anything of the party, but pledges that if entrusted with the cares and responsibilities incident to the office he will see that the interests of the county do not suffer. Mr. Reid comes of a race of lawyers. Judge Walker Reid, of Mason, was a relative and one of the foremost Circuit Judges of Kentucky's early days. His great uncle, Judge Newton Reid, of Bath, served his district with distinction; his uncle, the lamented Richard Reid, was taking the high road his talents and integrity entitled him to when his untimely taking off shut off his career. Mr. Reid is a graduate of Bethany College and was valedictorian of his class which was composed of exceptionally bright men, and is a close student in his chosen profession.

Thanks.

New York Early Rose and Goodrich Irish potatoes are awful good. Mr. J. P. McCormick brought us in some of each, and having tried them, this is the way we pass on them.

PERSONAL MENTIONING.

Edward Land is spending a few weeks in Owingsville.

Sam Kaah of Manchester was here visiting his father's family last week.

Miss Ida Wilkerson is visiting friends and relatives in Louisville.

Miss Bettie M. Roberts is at Estill Springs this week.

Mr. and Mrs. Chas. G. Glover leave today for the World's Fair.

Miss Hooker and Jesse Hazelrigg are spending a few days at Aden Springs.

Mr. and Mrs. W. H. Hibler and son, Charlie, leave to-day for a trip to the World's Fair.

Miss Mattie Peters left yesterday in company with Misses Mary and Rebecca Smith for the World's Fair.

John Coleman and Mrs. G. E. Coleman and children, of Owensboro, are visiting friends in this city.

Misses Mary Rebecca Smith left yesterday for the World's Fair, Lake Chataqua and other points of interest.

Mr. and Mrs. King Ford, Miss Cora Tipton, Miss Lela Stoner, Mrs. Joel Foster and daughter leave for the World's Fair to-day.

Mr. C. A. Harris, of the ADVOCATE, returned home Friday evening from a two weeks visit to the World's Fair.

Miss Addie Samuels returned on Saturday evening from Chicago and the World's Fair. She reports a most delightful trip.

Mrs. Elizabeth Trumbull and Mr. Julian McClymon, of Winchester, visited Mrs. James McClymon a couple of days the past week.

Mrs. Laura Magowan, Miss Katie Grubbs and Brooks Magowan and Deputy Sheriff, Ailie Ratliff, returned on Saturday from a week's pleasant stay at Aden Springs.

Frank Richard, of Mt. Sterling, visited relatives and friends here last week. Harry Hoffman, of Mt. Sterling, and Ray Patterson, of Owingsville, were in town Wednesday. Miss May Everett, of Mt. Sterling, is the guest of Miss Imogene Allen this week. On last Friday night Mr. and Mrs. N. C. Ratliff entertained in royal style at their home, near town, in honor of their guests, Misses Josie Gossett, of Independence, Mo; Pearl Lane, Lizzie Ratliff and Nancy Burbridge, of Mt. Sterling—Sharpsburg World.

The Mt. Sterling Floral Co. have engaged Mr. H. E. Jepson as foreman of their Green House. Mr. Jepson has had experience in England, Canada and this country, and comes highly recommended as a practical florist. He has made a specialty of fine decorative, choice cut flowers and artistic funeral work. They are overhauling their green-houses, getting in new stock and are preparing to do a wholesale and retail business in bedding plants next spring. They will buy their bulbs direct from France and Holland, and will be prepared to quote this stock at the proper time, at the lowest possible price.

The Kentucky National Bank, of Louisville, with \$1,000,000 paid up stock, because of a withdrawal of deposits was forced to close its doors Saturday. An investigation showed other banks to be in a good condition. This bank, it is believed, will be able to resume in a few days.

The Montgomery County Teachers' Institute began yesterday. Superintendent Joe E. Groves on hand; Prof. W. E. Lunley, of Hickman, Ky., is conducting the exercises which are being held in the Public School Building. There are thirty-two teachers in attendance.

On last Wednesday afternoon, a street fight took place between Dan Young, alias Sir Knight, and Jeff Crooks, both negroes. The fight took place on Mayville street on a line between W. F. Oldham & Co.'s and W. W. Reed's hardware stores. Crooks fired two shots and Young one. Both shots, it is regretted, failed to have the desired effect. Young's shot struck within a few feet of W. P. Oldham breaking a French plate glass in his door. Crooks' two shot came very close to Charles Edwards. In the ensuing fight they were held to appear in Circuit Court on bond of \$100 each. This promiscuous shooting on the street must be stopped.

RELIGIOUS.

Elder H. D. Clark started yesterday morning for Ezel, Morgan county, where he will stay till Saturday, preaching each evening during the continuance of the Sunday-school Institute, being held there by Prof. Lockhart.

Dr. C. Pope, of Millersburg Female College, preached to a large audience Sunday night, at the first Presbyterian church. Rev. A. Reid, pastor of the Methodist church, was to have conducted the service, but requested the visiting brother to take his place. It is not yet determined with which congregation the union services will be held next Sunday evening, nor who will fill the pulpit. Due notice will be given by the several pastors next Sunday morning.

A Word to You, Friend!

Your account at Greene, Clay & Chenaunt is now made out and they are ready to give you a clear receipt for the full amount. Please call at once and settle.

The Enterprise Machine Shop, South Mayville street, P. G. Hall, proprietor has just received a very superior lathe, Miles make, 33 inches swing, 14 feet between centers, and weighs 4,250 pounds. This and other machinery in the shops enables the proprietor to do all kinds of work, light and heavy, which comes within his line, and to compete successfully with the larger city shops.

TO COUNTY SUPERINTENDENTS.

The State Superintendent has sent out a circular notifying the County Examiners of Superintendents of schools to hold the examination Saturday, July 29. The examination for this county will begin at 2 p. m. at the Court-house. The following is the text of Superintendent Thompson's circular:

After consultation with the Attorney General relative to the question as to whether the County Superintendents now in office will have to be re-examined for certificates of eligibility, I have to advise you as follows:

1. He construes the language in Sec. 38, providing for exemption from re-examination in case a Superintendent has been continuously in office, etc., to apply solely to those who may obtain certificates of eligibility under the revised school law, and that all candidates who mean to stand for re-election to the office of County Superintendent in November, 1893, must be examined the last Saturday in this month.

2. The County Board for examination of candidates will be constituted as heretofore, of the county Judge, County Clerk and a competent person selected by them.

3. Those who prefer to do so can be examined by the State Board of Examiners at this office, on the same day. The questions used here will be the same as those sent to the County Boards, and the same regulations will obtain.

4. The question will be sent under seal and in registered packages, as prescribed by law, in about three weeks from this date.

5. It is not discretionary with the State Board of Examiners for this examination to fix any other day than the one named above, or to grant special license.

6. The fee will be only \$2 instead of \$3 as heretofore.

THE ADVOCATE.

Born on the 19th instant to John McDonald and wife a daughter.

Rev. E. E. Bomar is conducting a successful meeting at Howard's Mill.

The next session of Mrs. Harris School for girls opens Monday September 4th.

The flux are raging in West Liberty and vicinity. Many people are very ill with the disease.

A daughter was born to W. W. Reed and wife on the 15th instant. His name is Julia Tyler.

County Superintendent of Public School, J. E. Groves informs us that the pro-rata for this year will be \$2.85.

A. J. Cassidy & Co., of Winchester, have sold their lot plant to Pendleton & Cook. Messrs. Cassidy will return to Mt. Sterling.

Mr. E. V. Brother, of Owingsville, Commissioner of the Bath County Circuit Court, a strictly business man and a Democrat of worth, was in to see us Friday and renewed his subscription to the ADVOCATE.

In another column is an advertisement of the school of Prof M. J. Goodwin. He has established a deserved reputation as instructor for boys and young men second to none in the State. Write to him for catalogue. His number is limited to twenty five.

Mrs. J. C. Carter will go to Manchester this week to visit her brother and sister. She will be absent until September 1. Mrs. Carter has no decided to leave Mt. Sterling as was stated in other local papers. Her children accompanied her.

Mr. and Mrs. Ellis Dean entertained very handsomely at their home near this city, on Thursday evening last. The rain which fell in torrents could not keep away a large number of those invited to come to the hospitable home. Those who were so fortunate as to attend enjoyed a delightful evening.

John M. Todd, of the Louisville Evening Post, with his wife, is visiting the family of his nephew, E. S. Jameson in the county. He is here in the interest of the Post. Tommie Goodwin has been the agent here for the Post and will be glad to give the reading public a live and progressive newspaper, containing all the evening news, for only two cents per copy.

Mr. Henry Welch died at his home near this city, on Friday afternoon at 4:30 o'clock, after a lingering and painful illness. Mr. Welch came to this county a number of years ago, came a poor man, and by industry and economy he has raised a large family and accumulated quite a handsome property. His funeral service was held in St. Patrick's Church, conducted by Rev. E. J. Healey on Sunday morning. Burial in the Catholic cemetery.

Mr. J. Coleman Reid announces himself as a candidate for County Attorney. Mr. Reid comes before the Democrats of Montgomery county and modestly asks this small, but very important office at their hands. He is a young lawyer of no mean ability, who has not heretofore asked anything of the party, but pledges that if entrusted with the cares and responsibilities incident to the office he will see that the interests of the county do not suffer. Mr. Reid comes of a race of lawyers. Judge Walker Reid, of Mason, was a relative and one of the foremost Circuit Judges of Kentucky's early days. His great uncle, Judge Newton Reid, of Bath, served his district with distinction; his uncle, the lamented Richard Reid, was taking the high rank his talents and integrity entitled him to when his untimely taking off shorted his career. Mr. Reid is a graduate of Bethany College and was valedictorian of his class which was composed of exceptionally bright men, and is a close student in this chosen profession.

Thanks.

New York Early Rose and Goodrich Irish potatoes are awful good. Mr. J. P. McCormick brought us in some of each, and having tried them, this is the way we like them.

PERSONAL MENTIONING.

Edward Land is spending a few weeks in Owingsville.

Sam Kash of Manchester was here visiting his father's family last week.

Miss Isa Wilkerson is visiting friends and relatives in Louisville.

Miss Bettie M. Roberts is at Estill Springs this week.

Mr. and Mrs. Chas. G. Glover leave today for the World's Fair.

Miss Hocker and Jessie Hazlriggs are spending a few days at Aden Springs.

Mr. and Mrs. W. H. Hilber and son, Charlie, leave to-day for a trip to the World's Fair.

Miss Mattie Peters left yesterday in company with Misses Mary and Rebecca Smith for the World's Fair.

John Coleman and Mrs. G. E. Coleman and children, of Owensboro, are visiting friends in this city.

Misses Mary Rebecca Smith left yesterday for the World's Fair, Lake Chataqua and other points of interest.

Mr. and Mrs. King Ford, Miss Cora Tipton, Miss Lela Stoner, Mrs. Joel Foster and daughter leave for the World's Fair to-day.

Mr. C. A. Harris, of the ADVOCATE, returned home Friday evening from a two weeks visit to the World's Fair.

Miss Addie Samuels returned on Saturday evening from Chicago and the World's Fair. She reports a most delightful trip.

Mrs. Elizabeth Trumbull and Mr. Julian McClymont, of Winchester, visited Mrs. James McClymont a couple of days the past week.

Mrs. Laura Magowan, Misses Katie Grubbs and Brooks Magowan and Deputy Sheriff, Allie Ratliff, returned on Saturday from a week's pleasant stay at Aden Springs.

Frank Richard, of Mt. Sterling, visited relatives and friends here last week. Harry Hoffman, of Mt. Sterling, and Ray Patterson, of Owingsville, were in town Wednesday.

Miss May Everett, of Mt. Sterling, is the guest of Miss Ingogene Allen this week. On last Friday night Mr. and Mrs. N. C. Ratliff entertained in royal style at their home, near town, in honor of their guests, Misses Josie Gosselt, of Independence, Mo; Pearl Lane, Lizzie Ratliff and Nancy Burbridge, of Mt. Sterling—Sharpsburg, W. Va.

The Mt. Sterling Floral Co. have engaged Mr. H. E. Jephson as foreman of their Green House. Mr. Jephson has had experience in England, Canada and this country, and is highly recommended as a practical florist. He has made a specialty of fine decorations, choice cut flowers and artistic funeral work. They are overhauling their green-houses, getting in new stock and are preparing to do a wholesale and retail business in bedding plants next spring. They will buy their bulbs direct from France and Holland, and will be prepared to quote this stock, at the proper time, at the lowest possible price.

The Kentucky National Bank, of Louisville, with \$1,000,000 paid up stock, because of a withdrawal of deposits was forced to close its doors Saturday. An investigation showed other banks to be in a good condition. This bank, it is believed, will be able to resume in a few days.

The Montgomery County Teachers' Institute began yesterday. Superintendent J. E. Groves on hand; Prof. W. E. Langford, of Hickman, Ky., is conducting the exercises which are being held in the Public School Building. There are thirty-two teachers in attendance.

On last Wednesday afternoon, a street fight took place between Dan Young, alias Sir Knight, and Jeff Crooks, both negroes. The fight took place on Mayville street on a line between W. P. Oldham & Co.'s and W. W. Reed's hardware stores. Crooks fired two shots and Young one. Both shots, it is regretted, failed to have the desired effect. Young's shot struck within a few feet of W. P. Oldham breaking a French plate glass in his door. Crooks' two shot came very close to Charles Edwards. In the exciting trial they were held to appear in Circuit Court on bond of \$100 each. This promiscuous shooting on the street must be stopped.

RELIGIOUS.

Elder H. D. Clark started yesterday morning for Exel, Morgan county, where he will stay till Saturday, preaching each evening during the continuance of the Sunday-school institute, being held there by Prof. Lockhart.

Dr. C. Pope, of Millersburg Female College, preached to a large audience Sunday night, at the first Presbyterian church. Rev. A. Redd, pastor of the Methodist church, was to have conducted the service, but requested the visiting brother to take his place. It is not yet determined with which congregation the union services will be held next Sunday evening, nor who will fill the pulpit. Due notice will be given by the several pastors next Sunday morning.

The Enterprise Machine Shops South Mayville street, P. G. Hall, proprietor has just received a very superior lathe, Miles make, 33 inches swing, 14 feet between centers, and weighs 4,250 pounds. This and other machinery in the shops enables the proprietor to do all kinds of work, light and heavy, which comes within his line, and to compete successfully with the larger city shops.

TO COUNTY SUPERINTENDENTS.

The State Superintendent has sent out a circular notifying the County Examiners of Superintendents of schools to hold the examination Saturday, July 29. The examination for this county will begin at 2 p. m. at the Court-house. The following is the text of Superintendent Thompson's circular:

After consultation with the Attorney General relative to the question as to whether the County Superintendents now in office will have to be re-examined for certificates of eligibility, I have to advise you as follows:

1. He constructs the language in Sec. 38, providing for exemption from re-examination in case a Superintendent has been continuously in office, etc., to apply solely to those who may obtain certificates of eligibility under the revised school law, and that all candidates who mean to stand for re-election to the office of County Superintendent in November, 1893, must be examined the last Saturday in this month.
2. The County Board for examination of candidates will be constituted as heretofore, of the county Judge, County Clerk and a competent person selected by them.
3. Those who prefer to do so can be examined by the State Board of Examiners at this office, on the same day. The questions used here will be the same as those sent to the County Boards, and the same regulations will obtain.
4. The question will be sent under seal and in registered packages, as prescribed by law, in about three weeks from this date.
5. It is not discretionary with the State Board of Examiners for this examination to fix any other date than the one named above, or to grant special license.
6. The fee will be only \$2 instead of \$3 as heretofore.

LITTLE INJUN DICK.

Little Injun Dick
Was up to every trick,
'Twas he was but a dozen years old
In the manner he run here,
Except his head of hair,
A breach cloth added when the night got cold
His daddy was a chief,
Also a horse thief,
And to loved whistly better than his kid;
He had the biggest maw
For rum you ever saw,
And many a quest into it hid.
'Little Injun Dick
Found the dynamite stick
Some prospector had lost in the wood;
And, thinking it sweet meat,
He began at once to eat.
And said, "white man's sausage wretches good!"
Then home he ran with glee
To his father's teepee,
And found the old man as drunk as a lord;
He had just whipped his squaw
For having too much jaw
And tried to get in the last word.
When little Dick came in
He was eating like sin,
And the moment he set eyes on the kid,
He made a wicked kick
At poor little Dick—
'Twas the very last thing which he did
'Twas wonderful to see
The end of that teepee,
'The dust, smoke, legs, thunder and roar;
There was entrance in the hair
And hamstrings in the air,
'And it rained sweat for two days or more.
Twas a way more.

A Queenly Head

Can never rest on a body frail from disease any more than the lovely lily can grow in the sterile soil. When consumption fastens its hold upon a victim, the whole physical structure commences its decay. At such a time before the disease is too far advanced Dr. Pierce's Golden Medical Discovery will arrest and cure it. So certain is this that an offer is made to refund the money paid for it when a failure can be found under the condition of a fair trial.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise—a purer medicine does not exist and it is guaranteed to do all that is claimed. Electric bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive malaria from the system and also prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price 50c and \$1.00 per bottle at W. S. Lloyd's drug store.

Water should be given to young chicks in a manner to permit only the beaks entering the vessel.

Never give fowl soup or fermented grain or food that is spoiled. This is a direct method of inducing disease, and in order to have a profitable flock it must be kept healthy.

A man who knows of what he affirms, says: "I have had farm life and city life, and I have made up my mind that any man who leaves a good farm and goes into the arms of a business life is a big goose."

In France as in other parts of Europe the Government has nurseries where seeds are collected and shrubs are propagated for planting, and these are supplied gratis to planters, under the official crops that, being salaried, freely instructs them in the methods to be pursued.

A wonderful event. In such a state of civilization as ours, where merit is sure to be acknowledged, it is a wonder the factory of Dr. Fennel is worked to its fullest capacity to supply the medicines that are called, after such acknowledgments as the following come to be known: Wm. Parquay, Stevens Station, Ind., writes: "Dr. Fennel's Kidney and Backache Cure has cured a man here with kidney and bladder disease whom the best physicians had given up. He is now well and sound. It is regarded here as a most wonderful event. His medicines are all good and give great satisfaction." Equally meritorious, the female disease, rheumatism, blood diseases, headaches, dropsy, heart disease, etc. Guaranteed to satisfy or money refunded. Take home a bottle today.

The World's Fair and American Railways.

The Queen & Crescent Route widely known as the road running the "Plink" Trains in the South, is in the field to carry everybody from the South to the World's Fair at Chicago. No part of the Southern country is left unrepresented by this great railway and its connections. The Through Car System is an admirable exposition of the wonderful capabilities of American railroading. From New Orleans Through Sleeping Cars run daily, morning and evening, carrying, its passengers via Cincinnati or Louisville, as they may select.

From Shreveport, Vicksburg and Jackson another Through Sleeping Car Line comes to join and become a part of the magnificent Vestibuled Through Trains, which passing through Birmingham and the famous Wills Valley of Alabama, is joined at Chattanooga by the train from Jacksonville, Fla., Brunswick, and Atlanta, Ga., over the E. T. V. & Ga. railroad, and proceed north over the beautiful Clinch Mountain, through the grandest natural scenery and most attractive historical country in the world, to Oakdale, where another magnificent Pullman car is received, coming from the Richmond & Danville System from Charleston, S. C., through Columbia, S. C., the beautiful French Broad country, and Asheville, N. C. and Knoxville, Tenn.

The time to Chicago is made so as afford the most convenient hours for departures from the principal cities and arrivals in Chicago.

Passengers can purchase tickets good over one line north of the river, and returning via another if they desire variable route without extra charge. Or they can go via Cincinnati, returning via Louisville, or vice versa.

Round trip tickets on sale at reduced rates. Agents of the Chicago line will on request assist in looking up rooms or accommodation for visitors to the Fair.

Everything that an almost perfect system can devise to deserve the praise and patronage of the traveling public has been provided. An old lady found quantities of trumpet creepers growing on her new farm, and had many orders for them in reply to her advertisement. Rooted layers were mailed by the dozen or half dozen at a moderate but paying prices. This suggests the idea of using what one has at hand.

Attention, Farmers.

Unofficial, but reliable reports set the yield of wheat for the present year at 80,000,000 bushels less than the crop produced in this country last year. In view of this decline at home and the fall falling off in the grain yield abroad it is evident that wheat must advance in price, and reach a remunerative figure in the next 12 months. The price of wheat is less the cost to produce it, and when this is the case it is a time to hold for an advance in the market. It is wise to hold because there is a shortage in the crops of this year over the entire wheat growing country.

The Prospective Pork Market.

It is quite certain that the pork crop in the great pork-producing States of the interior is again short. As a consequence, we may look for prices for round hogs and all pork products as a rule comparatively high for a year to come. Every farmer should plan to take advantage of the situation by going in to fill the shortage and reap the benefit of high prices.—Mirror and Farmer.

Taking the Chances.

It was late at night and my horse was clean played out, when I came upon a mountaineer's cabin, and halted the house. Two or three dogs set up a furious barking and a voice called through the darkness:

"Who's out there, and what are you 'fussin' about?"

"I'm a traveler in search of lodgings."

"How many of you?"

"Only one."

"On a horse or a mule?"

"A horse."

"Well, you stay right on that horse till I light the candle and he'll look at you."

He left the horse by a back-door and came around to me holding a candle in his left hand and a shotgun in his right. After taking a look at me he asked:

"What do you come from?"

"Bristol."

"What for?"

"To see the country."

"Got any shootin' irons?"

"No. But what's make you so suspicious?"

"Well, I want to know who's who before I take him in. You kin git down and I'll gin you a bed, if you want to run the chances."

"What chances?"

"Why, my boy Jake's out a coon huntin', and I'll be home bimby. When he comes he'll hev a look at you. If Jake says you're a traveler and that's the truth to fear, then it's all right; but if Jake says you're one o' them revenoo sellers a smellin' round fur stills, we'll gin you jist three minits to git ready to meet vo'r Maker! Will you take the chances?"

I said I would, and was soon in bed. An hour or two later a light shone in my face and I woke up sufficiently to hear Jake say:

"I reckon he's all right, pap, but if he hals't he kin shoot him in the mornin' beto' he gets away."—Detroit Free Press.

Curious Facts.

Every gem known to jewelers has been found in the United States.

The strength of a horse is equal, on an average, it is said, to that of 74 men.

Uncle Sam is still "paying pensions to 20 widows of Revolutionary soldiers."

Of the seven full generals who were in the Confederate army, none are now living.

The farmer in Japan who has 10 acres of land is looked upon as a monopolist.

The amount of sediment carried to sea by the Thames in a year is 1,865,903 cubic feet.

There are more dwelling houses in Philadelphia than in any other city in the United States.

The Mississippi deposits in the sea in a year solid matter weighing \$12,500,000,000 pounds.

There are only 30 vessels in the world's merchant marine whose speed exceeds 19 knots an hour.

There are 27 royal families in Europe which have about 400 members. Of these 27 families 18 are German.

The first canal boat from the Erie Canal arrived in New York Harbor in November, 1825, and was the occasion of much rejoicing.

Nearly 46 per cent. of the 9,249,547 foreign born residents in the United States are living in the 124 cities of largest population.

The largest cut stone in the world are in the Temple of the Sun at Baal-hoo. Many are more than 60 feet long, 20 feet broad and of unknown depth.

It is said 1,000 words are quite enough for the vocabulary of common use, and that even with 400 or 500 a man can do business very comfortably.

Russia contemplates building what will be the largest electric railway in the world; it will run from St. Petersburg to Archangel, a distance of 450 miles.

The French method of administering castor oil to children is to pour it into a pan over a moderate fire, break an egg in it and stir. When cooked, flavor with salt or sugar or currant jelly.

Chemically treated, one pound of coal will make enough magenta to color 500 yards of flannel, vermillion for 2,500 yards, aurine for 120 yards and alizarine sufficient for 155 yards of cloth.

On the far Northwestern waters of Puget Sound, there are so many dead trees floating that none but screw steamers or stern wheelers can navigate. A side wheeler would sooner later strike a log, perhaps weighing many tons, which would knock her paddles to splinters.

The old custom of ringing the curfew has been reinstated in the villages of Canada, in accordance with an act passed at the last session of Parliament. This new act is not quite so strict as the old one. It requires that all children under 17 shall be off the street at 9 o'clock, the hour of the ringing of the curfew.

There is a general idea that the President's salary of \$50,000 a year is all that he receives, and that, when compared with the salaries paid the sovereigns of Europe this sum is not enough. This is a mistake. In addition to this salary, the President receives \$36,064 to pay the salaries of his clerks and subordinates. His private Secretary has \$3,250; his assistant Secretary, \$2,250; the stenographer \$1,800, each of the five messengers \$1,200, the steward \$1,800, the two doorkeepers \$1,200, while other employees are paid in proportion down to the man who takes care of the fires, who receives \$864. In addition \$8,000 is allowed for incidentals, such as stationery and carpets; \$12,500 for repairs and refurbishing; \$25,000 for fuel; \$40,000 for the greenhouse and \$15,000 for the table, gas and other incidentals. In all the President and his household cost the country over \$125,000 a year.

Not many people know how much money enters into the composition of a first-class passenger car. To build a passenger car of the best kind requires about 2,400 feet of poplar, 3,400 feet of ash, 1,000 feet of white pine and 2,300 feet of yellow pine, 500 feet of the best oak, 400 feet of the strongest hickory, 400 feet of cherry, 400 feet of maple veneer, and perhaps small amounts of other woods. There are four pairs of wheels and axles, two pairs of passenger car trucks, about 3,000 pounds of iron, 700 pounds of castings, 300 pounds of galvanized iron and 250 sheets of tin. Then add screws, chandeliers air breaks, shaft balances, 60 or 70 glass panes for the

windows and doors, stoves, seat fixtures, lamps, door locks, knobs and hinges, basket racks, window springs and fasteners and seat springs and you have most of the hardware. Then there are about 200 yards of plush 100 yards of sheeting and 300 pounds of hair. When all these things are taken into the account no wonder can be felt that a passenger car costs over \$400. The materials do not cost this much, but before the car is put on the track about \$1,300 will be expended in labor.

An Original Composition.
Teacher—Are any of your compositions ready?
Little Girl—Mine is.
"Is it an original composition?"
"Yes'm."
"Does it tell of your experiences and observation as I directed?"
"Yes'm."
"Very well. You may read it?"
"I went to a wedding and a funeral, and the bride looked lovely and the corpse looked natural."—Street & Smith's Good News.

The Perpetual Home of Cholera.
A Russian, Dr. Telyafin, cites the way in which the plague disappeared from Egypt when the felahs of Egypt ceased to bury their dead on the borders of the Nile. Formerly the bodies were placed so near the river, that when the rise took place, they were washed out of the ground in all conditions of decomposition, and were blown down the sluggish stream and were caught in the broad expanse of the delta as the waters behind diminished in volume. Then the hot sun added its power to that of the water, and the poisonous gases and particles were diffused among the living; and if there is one physiological law stronger than another, it would seem to be that particles that have once formed part of a living body are deadly poison to it when they are made to again enter the circulation in a state of decomposition.

Dr. Telyafin calls attention to the fact that the perpetual habitat of the cholera bacillus is the delta of the Ganges—a low-lying area of about 7,500 square miles, intersected by many mouths of the Ganges and Brahmaputra rivers. The soil of the delta is very moist, and contains the decaying remains of many forms of animal and plant life. Cholera is always to be found among the people who dwell among and about those river mouths and after unusually heavy rains or some other ill-understood cause it ranges like epidemic and steadily develops its career to other regions, carrying the globe before it stops. The world has passed through four of these destructive pandemics, and is now holding its breath in the terror of expectation in the course of the fifth.

People who know the fatalistic, apathetic natives of India, fancy it an unrealistic dream to think of stamping out the disease; but such misgivings are already being dispelled in Hindustan, where the strong hand of English power has been able to make itself felt, that Dr. Telyafin dares to hope. The first step he would take would be to restrain the natives from casting their dead into the sacred river—or at least he would have them made to cremate the dead and scatter the harmless ashes in the waters, and he would have the delta area itself made dryer by the planting of eucalyptus groves, as is already done on an extensive scale in Algeria, thus rescuing from wasteful idleness large areas of land which now sustain a numerous population of industrious and prosperous people. Drainage also scientifically applied to large sections here, has accomplished wonders in creating habitable spots out of which was once considered useless ground; and the world really owes France a debt for the proofs she has shown in the application of a thorough and intelligent sanitation, that even tropical Africa can be made a wholesome home for men. The Russian optimist thinks that even in the poison-breeding delta the money argument may yet be brought to bear, for medicinal lands, when devoted to agriculture, soon pay principal and interest for the reclamation. Already extensive and costly water works have been introduced in Calcutta.—N. Y. Independent.

A Missouri man planted 50 fruit trees with great care. He covered the roots with earth and threw in a gallon of fresh hen manure, then filled up with earth. All but four of the trees died. Then he went down to cuss the nurseryman who sold him the trees when in reality it was the manure in the wrong place that had killed them.—American Cultivator.

Do Not Mix Them.
Too many farmers have an idea that they can breed just what they want by mixing breeds which have some of the desirable points. If the Short-horned poor milk they cross them with Jerseys. If their sheep are raw boned and have thin wool, they try the Merinos, and if their pigs or poultry are not what they like they keep up their experiments by mixing extremes. Common farmers can not afford this. Fixing new and desirable types is a slow process, and it is much better to pay a good price for what has already been done by an expert than to suffer the loss and disappointment which follows in too many cases if the change is attempted without experience.—Mirror and Farmer.

Airing Cellars.
A breeze feels so refreshing that many people, who know better if they would stop to consider the matter, think that the air cooling off the rooms by opening the doors and windows when the mercury stands at 100 degrees in the sun outside, but at the same time they would know better than to turn a hot stream of water into a pall of drinking water to cool it. The same is applied to cellars. To keep them cool they should be kept closed when the air outside is warmer than it is inside. The "cool" breeze coming in at the window from the outside is a delusion. The rapid change of air hastens evaporation and cools the surface of the body while it warms the air in the room. Forlorn rooms the cooling breeze of the day is worth more than the few degrees that would be gained during the night by keeping the heat out, but cellars should be kept cool and must be aired. There are few windows should be kept closed in the day time unless there is an unusually cold time. Open at night and let the air change but do not open on very warm nights.—Mirror and Farmer.

The Financial Situation.
The predictions of an improvement in financial affairs has been fully verified by the last few days monetary transaction throughout the country, and the belief that the crisis has been passed is becoming more general and widespread. The consignments of gold from Europe received last week, and others on the way across the Atlantic, have not been significantly large, but of a sufficient volume to indicate that Europe is buying more from us than she is selling here. The exportation of wheat for the week aggregated 4,235,000 bushels, an increase of 1,500,000 bushels over the preceding week. This is a significant fact indicating as it does that the balance of international trade is beginning to turn in our favor. Business failures continue, however, to be numerous and to increase, the total for the week being 398 against 319 the preceding week and 168 for the corresponding period of last year. Many of the houses that have gone down since the present financial furore are resuming business or are arranging to do so, their assets and liability schedules being nearer to a balance than was believed they would when the close was resorted to.

HORSE AND TRACK.

Kelly marked Direct 2:05 and Flying Jib 2:04. This is the fastest pair of records ever credited to a driver.

A horse race is not wicked in itself; it is what a man says while he is tearing up his pool ticket that is sinful—Detroit Tribune.

All trotting at Stockton, Cal., this year, will be on the regulation track. The records are not broken and the races are not won by horses that are not worked and worked hard.

Moquette 2:10 has been shipped to Bowerman Bros. He has been driven but one fast mile this year making that in 2:28.

Axtell 2:12 is back in Warren Park. The Terre Haute correspondents have little to say about his speed.

It would appear that Martha Wilkes has a soft spot and it does not seem particularly hard to find it when the company is fast.

A contemporary wants to know how Nancy Blake would act in a field when the company was fast, the clip-hot and the heats split. The question is paradoxical. The heats would not be split.

The trotters in training at Rush Park are given about all the grass and weed hay that they can eat. Old hay forms but a very small part of their rations.

Of all the fast trotters in Critt Davis' hands this year, Harrietta is looked to do the most sensational work, although Katharine S. is not far behind her in promise. Harrietta has been a half in 1:04 and has a little reserve speed. She is a race horse that can be relied on, while Katharine S. is not.

We notice that some horses, which apparently were not worth a counter-felt dollar last year, are winning races in fast time this season. Then again, those that were first-class last season prove to be of little value this. The more one investigates the more he becomes convinced that "horse racing is a mighty 'business' business."

When a business becomes unprofitable because of an over supply enough people will drop out of it to insure a handsome profit to those who remain in and wait for the better times that are sure to come. The demand for horses will never cease and the business of breeding them is as stable as that of raising cattle, sheep and hogs, and in the long run it is generally more profitable.

The trots at Detroit last week were well contested and time fast, in the free-for-all, Nightingale won, but time was not as fast as at Pittsburgh. Martha Wilkes did not get any of the money and it looks like she is not in form this year to go in the free-for-all. The free-for-all race was the fastest five-hat race ever paced. Flying Jib won the first heat in 2:07; Masco took the second and third heats in 2:04 and 2:06; Hal Pointer then won the fourth heat in 2:07; Masco taking the fifth heat and race in 2:07; Hal Pointer got second money, Flying Jib third. Dr. Sparks got a heat in 2:18 class, 1:21; but the race was won by Sira, by Guy Wilkes, best time 2:11.

The largest field of horses that have started this year was in the 2:45 at Jerseyville, Ill., July 11. There were eighteen starters and all of them were inside the flag the first two heats. It took five heats to settle the race, however, and the winner of the first two heats and seven others were distance before it was concluded.

Any one who takes the trouble to investigate cannot help coming to the conclusion that the best way to race horses profitably is to nominate them in the stakes. There are so many waiting to start their horses in class races that it is a sure thing that at a more important meetings the best horses in the land will be met. A glance at the summaries of the class races this year will serve to enlighten any one on this point. On the contrary in the stake events one knows at the beginning of a season just what horse he will have to beat and frequently the best horses are not engaged in them. There is more money hung up in the stakes, the entrance fee is lower and the chances of winning are better than in a purse event. Racing is in a measure a game of chance and a man who is not willing to invest his money on a prospect will never make a success at it.

A Modest Request.

A Scotch woman who returning from a market to town where she had made a few purchases. Just as the last bell rang a tussy gentleman elegantly dressed and with a man-mind-thyself gas, rushed into the department, flung himself hastily into a corner, pulled out the evening paper and proceeded to devour its contents. Hardly had he become seated when the woman timidly addressed him "I'm very sorry, sir, but—"

"I never listen to beggars," he replied the gentleman. "If you annoy me again I'll report you."

Chry's eyes flashed then twinkled. She said no more, and the choleric gentleman retired behind his paper with an angry frown on his face.

All went merry as a dinner-bell until the train arrived at Cromdale, when Christy stepped out, again addressed the choleric individual in the corner. "I dare say, sir, whether you report me or no, but I want that pun o' butter you have been sitting on for the last six miles."—Spare Moments.

To introduce Rudge's Royal Mead, the latest summer drink, into American summer homes this season, one trial package will be sent to any address in U. S. FREE. If you can make thirty words from the letters contained in R-U-D-G-E M-E-A-D you are almost certain to secure one of the valuable articles which are to be given to the first ninety-nine persons in the U. S. able to send a list of thirty words or more. Besides this, to the person sending the largest list received, will be given one of Steinway's Upright Grand Planos; a trip to the World's Fair and return to the second largest list; an imported Shetland pony for the third; a pneumatic bicycle for the fourth; a gold watch for fifth; pair diamond ear-rings for sixth; parlor organ for seventh; imported music box for eighth; black silk dress pattern for ninth, and a guitar for tenth largest list received. Rudge's Royal Mead is the popular temperance drink of the best classes in England to-day, and is sure to be used continually by every American family who receives one of our free packages for trial. Our word-building contest is given to advertise Royal Mead, and is conducted fairly and conscientiously. It closes September 1, 1893. Send seven U. S. two-cent stamps to cover expense of forwarding and receive a large water-colored reproduction (suitable for framing) of "Maze," the \$1,000 prize. Dr. Bernard owned by the President of this company. The finest dog on the continent. Address The Rudge Company, 118 St. James Street, Montreal, Quebec.

Secretary Carleton returned to Washington Friday from a visit to Chicago. He denied having had any conversation upon financial matters with Capt. Thatcher, an officer-seeker from Colorado, who claimed to have received assurance from the President and the Secretary that they would not try to secure the unconditional repeal of the Sherman law.

Home Philosophy.

A fool carries his name in mouth. The wren has a sweeter song than the peacock.

All churches have some members who talk too much.

Every man is a hypocrite who prays one way and lives another.

There are two ways of telling a goose—by its gabble and its walk.

Find a man who has no hobby and you find one who is not happy.

Nothing will do more to improve the looks than sunshine in the heart.

Scrubbing a pig with soap will not take the love of mud out of his heart.

The right kind of a man always learns something from a mistake.

Some people who claim to be praying for the salvation of the whole world, who never go to prayer meeting in rainy weather.—Ram's Horn.

It is well.—To learn to think and act for yourself.

To respect gray hairs, especially your own.

To waste nothing—neither money time nor talent.

If you have a place of business, to be found there when wanted.

To bear little trials patiently that you may learn to bear greater ones.

To be self-reliant and not take too much advice, but rather depend on yourself.

To keep alive in your breast that little spark of celestial fire called conscience.

To learn to say no; it will be of more service to you than to learn Latin.

To do all the good you can in the world, and make as little noise about it as possible.

To stick to your own opinion, if you have one, allowing others, of course, the same liberty to stick to theirs.

Saving the Special.

When word came that the train was four late a chunky young man who had on his store clothes and was sticking close to a big black satchel went to the depot master and said:

"Got down the luck anyhow! I was to be married down at Henderson tonight."

"At what hour?"

"Seven o'clock."

"Girl or widow?"

"A widder who is worth \$1,000. Can't I hire a injine or sumthin to get me down ther?"

"Why, yes. I might git you down, perhaps, but it would cost you a smart sum. Better telegraph firsthand see if there's any use of your going?"

"Any use?" Why, I'm to married, ain't I?"

"You said so, but maybe there's been a slip. You can't always tell about widows."

He wanted to raise a row, but finally cooled off and sent a telegram to a friend at Henderson, says the Wilmington News. In about three-quarters of an hour he got an answer; it read: "No use to come on. She married the other fellow this forenoon."

"Saved you at least \$25, besides your trouble," said the depot master as the young man's knees grew weak and he sat down. "I've been engaged to three different widows and every one of them threw me down at the last minute. Thought it would be so when I suggested a telegram. Take a little of this whisky and then go out and sit on those bags of guano. You're not mortally wounded, but only mashed as flat as a pancake."

MONEY MATTERS.

ARE always a topic that interests. Its a topic that puts all good people to thinking, and generally takes lots of hustle to keep on top with them. Money is hard to get and harder to save, but there are ways and ways to do a thing. One piece of folly is to pay rent forever. There is a better way to live and have a home. Go to Baird & Winn and borrow the money on easy terms and easy payments. Buy the house and let them insure it against fire and tornado, and then have them insure your life, so that grim death's coming won't leave your wife and children penniless. For selling and buying anything in the way of real estate or stock's and bonds, go to

BAIRD & WINN.

Money! \$100,000 Money!

Can loan from \$1,000 to \$10,000 on good city or country property anywhere in the State on short notice.

JOHN SAMUES.

E. H. Taylor & Son, a large whiskey firm of Frankfort, assigned on Thursday. This company was interested in the distillery at this place. Their liabilities, it is said, will exceed \$100,000, whilst it is claimed their assets are in the neighborhood of \$300,000. It is said the Government is a large creditor, and that the forcing of whiskey out of bond was one cause of the failure.
